Winner - October 2024

**Level of Experience:** Journeyworker

**Years in Trade:** 9 years

**Union:** OPCMIA

**Local:** 528

**City:** Renton, Washington

---

### **Bio**

Brittani Cain has been a member of Local 528 since April 2015. She was raised in the Mount Vernon area and completed her education at Shoreline High School. Her only sibling passed away in a car accident not long after she started working. She held jobs in retail and landscaping until her good friend told her about the Cement Masons Apprenticeship. At 24, after making it through 'Survivor Day' she started working for Turner. After one year, she got picked up by Hoffman and then landed at Skanska.

Brittani's long list of mentors at Skanska include Ken Wagner, Alex Garcia, Ken Hester, David Soto, Rocky Roth, and Danielle Green. She is competent on flatwork as well as patch & repair. She is currently a Foreman with Skanska on the Microsoft Project in Redmond.

She has been involved with fire-performing troupes for 17 years and is currently with a group called The Fractal Phase. They travel around the state entertaining private parties, events, and conventions. She also attends the Burning Man event every year.

She and Travis, her partner of 6 years, are currently house hunting for their first home. Brittani has so much in front of her to achieve.

---

## Why Brittani Was Nominated

In the field and with this union, she is truly one of those members who started at the first rung of the ladder, is at the 9-year mark, and has so much more in front of her. We look forward to her journey and all her successes. She encourages women around her to do well and there is something about her that her male co-workers find compelling and want to mentor her.
